

SCREENWOOD

SOUNDLINA™

Environment

POSITIVE IMPACT is what we create, whether collaborating with our customers, enhancing interiors, or caring for each other and our planet.

We innovate products and systems with people and the environment's safety and wellbeing in mind. Screenwood seeks to ensure that sustainability concerns are integrated throughout the entire value chain, from order to site installation.

Global GreenTag Certified

Global GreenTag Pty Ltd (GreenTag) is a third-party verified ISO 14024 and ISO 17065 Conformity Assessment Body (CAB) that conducts the GreenTagCert™ certification program. It is recognised by the Australian Competition and Consumer Commission (ACCC) as an approved certification (series) for undertaking product-focused environmental, health, ethical and social responsibility assessments of products and their manufacturers in accordance with this standard.

Global GreenTag is the only 'One Stop' Product Sustainability Certification, Product Health Transparency, Environmental Product Declaration & Manufacturer Claim Verifications Program Operator relevant to all four of the major green building rating tools in the world (and others) including LEED®, International WELL™, Building Standard, Green Star® and BREEAM®.

Low VOC

SOUNDLINA™ has been tested in accordance with ASTM D5116-2017 small chamber test. Results are below the limits specified by the Green Building Council of Australia, Green Star Interiors requirements.

Waste - Recyclable packaging

To minimise waste, we take care in packaging our samples using compostable, zero waste padded mailers and SOUNDLINA™ is packaged using recyclable cardboard.
