Soundlina®
finished in NAVURBAN Diamond™
The Oaks

For over 20 years, we've proudly collaborated with leading interior architects and designers, shaping rich and sustainable spatial experiences that enhance comfort, well-being, and a deeper connection to nature.

In 2005, Screenwood began with Panels after recognising the potential for a certified acoustic linear batten system that was prefinished, preassembled, and remarkably simple to install.

Since then, the Screenwood Panels system has been specified for projects large and small—from law courts, libraries, shopping centres, and hotels to corporate headquarters, universities, and countless architecturally designed homes.

Soundlina® acoustic wall covering

Winner of the 2024 Good Design Award®, Soundlina® is the world’s first-to-market perforated architectural wall covering with high acoustic performance. It is meticulously crafted to inspire visionary interiors for less. Less time, less installation cost, less impact to the environment.

This Group 1 fire-rated acoustic wall covering is an outstanding choice to reduce reverberation and increase speech clarity for enhanced communication, productivity, and tranquillity.

Acoustically rated Tested to achieve up to 0.85 NRC when installed as recommended.*	Unprecedented design versatility Enables you to influence acoustics across expansive walls, ceilings, architectural shapes, and joinery.	Authentic woodgrain aesthetic Natural-looking, 3D-embossed woodgrain patterning for biophilic design exploration	Diamond-strength prefinishing Prefinished with NAVURBAN Diamond™, providing an extra layer of surface protection.
Global GreenTag™ Certified to Level B and the PlatinumHEALTH™ rating.	Fire certified Certified Group 1 fire-rated	Easy installation and low maintenance Simply install using the paste-to-wall method (no joiner needed).	Australian made Designed and crafted in Australia by Screenwood.

*As described on the How it works page or download our Installation Guide for comprehensive installation instructions.

Soundlina®
finished in NAVURBAN Diamond™
The Oaks

Empowering stylish interior soundscaping

Soundlina® enables you to strategically influence acoustics while pushing boundaries in biophilic and contemporary design trends.

Suitable applications

- Internal walls, ceilings, curves, and joinery with acoustic requirements
- Group 1 or Group 2 fire-rated interiors.
- Any projects requiring an ultra-realistic woodgrain alternative to solid timber acoustic panelling
- Large-scale ceiling and wall projects that require a highly cost effective acoustic solution.

Suitable markets

Aged care	Government	Transport hubs
Childcare	Healthcare	Multi-res developments
Commercial	Hospitality	Public buildings
Education	Hotels and clubs	Retail

Note: This product is not warranted for external use.

Comprehensive Testing and Certifications

NRC rated (acoustic performance)

Soundlina® boasts a tested high acoustic performance of 0.85 NRC when installed as recommended (see previous page or download Installation Guide [here](#)). Soundlina® also effectively absorbs frequencies below 500Hz, helping to better control sound reverberation caused by speech.

Fire certified

Group 1 fire-rated, tested to AS/NZS 3837-1998.

Global GreenTag™ certified

Global GreenTag™ certified GreenRate Level B and GreenTag PHD PlatinumHEALTH™.

Low VOC

Soundlina® has been tested in accordance with ASTM D5116-2017 small chamber test. Results are well below the limits specified by the Green Building Council of Australia's 'Green Star Interiors' requirements.

Results available on request.

Award-winning 'Good Design'

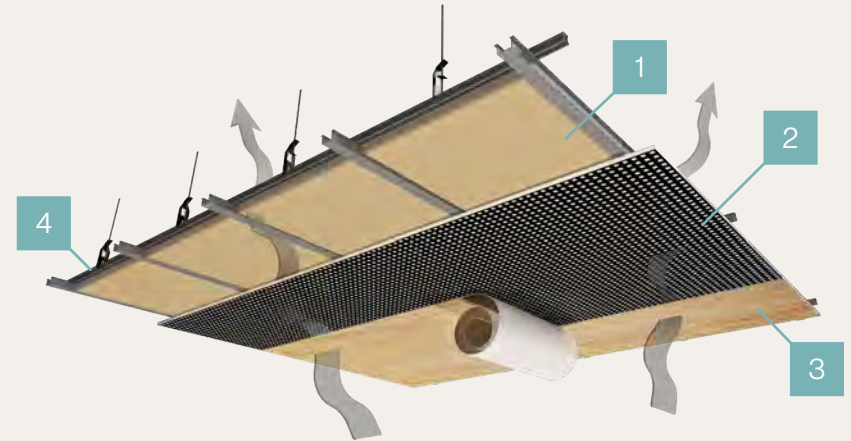

How it works

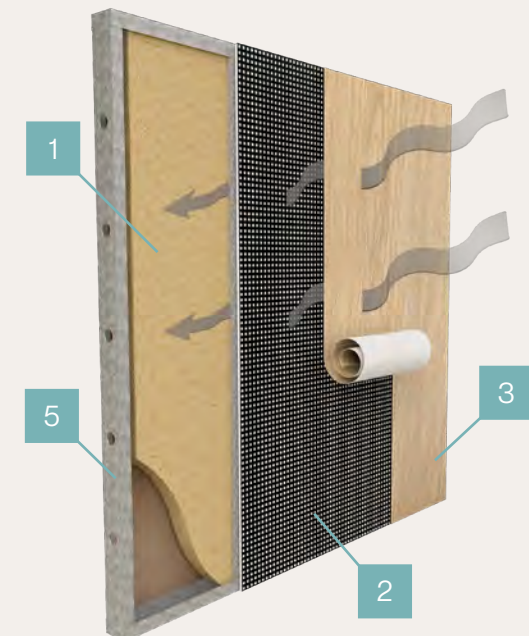

Soundlina® perforated wall covering reduces echo by allowing sound to travel through its subtle perforations to the perforated plasterboard, where the acoustic insulation absorbs it.

Highly cost effective and simple to install, Soundlina® is tested to achieve an impressive 0.85 NRC when installed as recommended on 12/25mm perforated grid plasterboard with acoustic insulation 14kg/m³.

Ceiling installation

Wall installation

- 1 Acoustic insulation
- 2 Perforated plasterboard (painted black)
- 3 Soundlina® perforated wall covering
- 4 Suspended ceiling system
- 5 Stud wall

Weight	360g/m ²

Ultra-durable NAVURBAN Diamond™ finishes

Soundlina® is available in a choice of NAVURBAN Diamond™ woodgrain finishes. This technologically advanced surface features a reinforced UV-coated top layer, developed in Japan using Smart NANO™ technology.

Offering diamond strength for ultimate durability, NAVURBAN Diamond™ ensures Soundlina® retains its premium quality finish in even the toughest commercial environments.

Advanced performance for longevity

- Scratch and abrasion-resistant
 - Stain and water-resistant
 - UV fade resistant
 - Low maintenance (wipe down with warm, soapy water)
 - Global GreenTag™ certified
 - Suitable for interiors
 - Finish-match with any Screenwood or NAVURBAN™ product
-

Soundlina® ultra-realistic woodgrain finishes

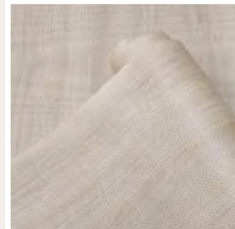

Soundlina® non-PVC Olefin decorative film surfaces feature 3D-embossed, textured woodgrain patterning with smooth finishes and vertical grains for an ultra-realistic timber aesthetic.

In-built sustainability

Australian made for sustainability control

We proudly manufacture this product in Australia to control sustainable business practices from start to finish.

Global GreenTag™

The Panels system has achieved Global GreenTag™ certification to Level B and the PlatinumHEALTH™ rating. This certification aligns with your green building and sustainability goals by ensuring the product meets stringent world-class standards for health and safety, non-eco-toxicity, post consumer recycled content, waste reduction, and compliance with environmental and labour regulations.

PEFC™ certification

We proudly hold Programme for the Endorsement of Forest Certifications (PEFC™) for our Panels Solid Timber range. PEFC™ certification provides assurance of sustainability throughout the entire value chain, from the forest to the finished product.

Chain of Custody

Screenwood complies with Chain of Custody for certified wood and forest products and is committed to operating a Due Diligence System (DDS) in accordance with AS 4707:2014.

Ethical sourcing and supply chain transparency

Panels components are sourced from ethical suppliers who comply with stringent Global GreenTag™ criteria, ensuring sustainability throughout the value chain.

Sustainable packaging

We deliver our products in recyclable, recycled, and biodegradable packaging, promoting easy disposal to minimise environmental impact.

All our products are designed
and made in Australia at our
factory in Kirrawee, NSW.

Project gallery

Soundlina® has been selected by leading interior architects, designers, and builders for noise sensitive environments such as universities, schools, early education, aged care, retail and restaurants.

About Screenwood

We empower visionary interior architecture by championing the principles of strength, utility, and beauty in architectural and acoustic decorative lining innovations. As designers and manufacturers, we strive to create a positive impact through technical expertise, master craftsmanship, and genuine care for people and the planet.

We're proud to earn customer trust through consistency, delivering meticulously engineered products and systems that set the benchmark for performance, cost-effectiveness, and ease of installation.

Soundlina®
finished in NAVURBAN Diamond™
Balmoral

One architectural product family. Unlimited design potential.

Modulo®

The trusted tongue and groove panelling system for interior architects and designers seeking a cost effective, simple-to-install solution without compromise. Modulo® is available in Group 1, 2, and 3 fire-rated substrates as well as Group 1 acoustic versions - all with Global GreenTag™ certifications to align with your sustainable building vision.

Panels

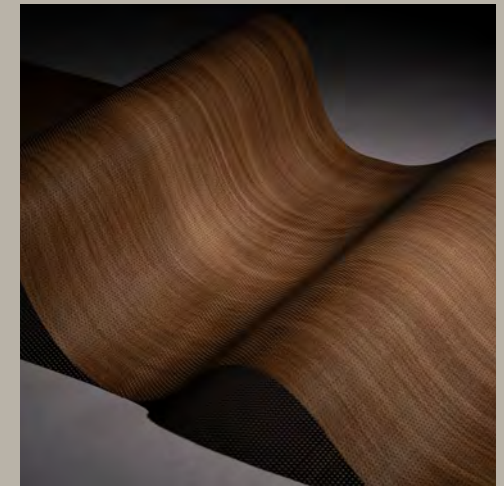

Our prefinished and preassembled acoustic linear batten system delivers an NRC of up to 1.0. The Panels system is available in a range of profiles in PEFC™ solid timber or fibreboard prefinished in NAVURBAN™ olefin film.

Stix®

The Stix® collection presents a sophisticated range of prefinished, loose decorative battens, technically designed to complement our Modulo®, Panels and Soundlina® systems. Global GreenTag™ certified Stix® battens are available in Group 2 and 3 fire-rated substrates.

Soundlina®

Winner of the 2024 Good Design Award, Soundlina® is the world's first-to-market perforated architectural wall covering with high acoustic performance. Boasting an NRC of 0.85, a Group 1 fire rating and Global GreenTag™ certification, Soundlina® is prefinished in NAVURBAN Diamond™ for ultimate durability and an ultra-realistic woodgrain aesthetic.
